STARVING IRELAND.

The condition of the poor in Ireland in the counties which are afflicted by the potato blight is attracting the attention and exciting the sympathy of the entire world. The distress is only beginning to be felt, and during the long winter months a repetition of the horrors of 1847 are inevitable. English misrule and the horrible system of tenantry in operation in Ireland has made that country a land of misery and the abode of famine. Ireland is of a certainly a difficult country to properly govern, but the fact is that Great Britain has rarely, if ever, attempted to enact a disinterested law for her government. There is no sympathy between the two races and England is disposed to let the sons and daughters of Erin get along as best they can, until her neglect has aroused the indignation of the civilized world. There is a spasm of activity which is soon dissipated in a few land bills and the like which leave no lasting good to poor, hungry Ireland. What is needed in that country is home rule, in which the people can legislate upon their own needs. Until that day comes the Emerald Isle will ever be at the mercy of the fluctuating quantity of her one production.

Union Pacific Construction into California.

Chief Engineer Bogus, of the Union Pacific, now in San Francisco, said to a reporter Monday regarding plans and prospects: "The Union Pacific has made surveys into both Northern and Southern California, but as far as I know extensions into the State have not been decided on. The surveys into Northern California were completed some two years ago, but I prefer not to speak in detail about them. The surveys into the southern part of the State were made not long ago. Three surveys were run, all from Pioche, Nevada, southward. One runs to Homer and another to Ludlow, points on the Atlantic and Pacific road. The third survey runs to a point on the Southern Pacific road that I do not care to mention. All of these surveys were made to furnish to the directors of the company information about the State. Further than that I do not care to speak, because I know nothing. At the present time the company is building about 555 miles of new road. One piece of road is the extension from Milford to Pioche, a distance of 145 miles. It will be completed by February 1, 1891. Another of our new roads is the line from Portland to Seattle. We have between 2,000 and 3,000 men at work on it now, and want 2,000 more very badly. We are paying laborers \$2.25 per day. The road will be 184 miles long and we have a steel and iron bridge across the Columbia river at Vancouver, Wash., that will cost \$1,250,000."

Causes Which Have Recently Depressed the Silver Market.

New York, Sept. 30.—The Evening Post says the immediate causes which depressed silver have spent their force for the time being and an upward reaction is soon probable. The paper accounts for the depression by the following causes: The Treasury has been out of the market as a buyer, the supply of bullion here has not been diminished by Treasury purchases, the trade relations of England and India have been more favorable, England has caused a decrease in the demand for silver for export to India, and money is tight in London, and dealers in silver there, seeing the demand lighter for the time being, both in this country and for India, have only to bid on declining prices.

Benjamin Franklin bequeathed in trust to Philadelphia and Boston each \$1,000 to be invested in loans at 5 per cent interest, to "married young artificers" to assist them in business. The Philadelphia fund has reached \$100,000 and the Boston fund nearly \$400,000. The heirs, who number about fifty, have entered suit for the property, alleging that the provisions of his will are in violation of the rule of perpetuities in common law.

Captain John S. Spicer of the New London whaler Era some time ago captured an immense whale that yielded 2,500 pounds of whalebone, the market price of which is \$5 a pound. The bone taken from that one whale is worth \$12,500, besides which there is the oil, 150 barrels of it or more. The whale was captured in Cumberland Inlet.

The appropriations made by the first session of the Fifty-first Congress were \$361,311,503. The permanent annual appropriations for the years 1890-91 amount to \$101,028,453, making a grand total for the year of \$462,339,956, an increase over the Fiftyth Congress of \$40,413,613.

Two eminent clergymen have recently preached in a Hartford, Conn., church, and their sermons were so nearly alike that people began to whisper the awful word plagiarism. But it turned out that they both used the same book of sermon skeletons. Unless carefully used a sermon skeleton is a dangerous weapon.

A public clock is to be raised in Philadelphia that will take one year to place in the tower. The minute hand is to be twelve feet and the hour hand nine feet in length; the bell will weigh 20,000 pounds; a steam engine will be placed in the tower to wind up the clock.

LATEST NEWS ITEMS.

A pipe organ has just been purchased for the Quaker meeting house at Hannibal, Mo. And so the world moves.

The Pennsylvania Railroad Company has been sued for over \$800,000 on account of discrimination in oil shipments.

An inch of rain means 100 tons of water on every acre. This fact is interesting now the rainy season is just opening.

Over six million pieces of mail matter are annually sent to the Dead Letter Office. A daily average of over twenty thousand.

Three thousand acres of land have been purchased near Minneapolis as the basis of a building scheme said to involve \$7,000,000.

The residents of Mentor, Ind., are agitated over a mysterious disease that has killed the five children of George Davidson.

The small boys in Olacinnati who smoke cigarettes are having a hard time of it. The police arrest those whom they find smoking.

Immigration into the United States in the past ten years has been almost 2,500,000 greater than it was in the ten immediately preceding.

A colored boy in Zanesville, Ohio, is named Times-Recorder Sammons. His father admires the paper of that name published there.

An inmate of the Georgia Lunatic Hospital imagines that he is a grain of corn and will not go into the yard for fear the chickens will eat him.

The aggregate growth in population of the country, according to the figures of the Census Bureau, has been 2 per cent smaller between 1880 and 1890 than it was between 1870 and 1880.

A positive denial comes from the City of Mexico of the story that President Diaz has been shot at.

The stock of silver in the New York Exchange has fallen 1,100,000 ounces in the past ten days.

Rhode Island has begun the celebration of the one hundredth anniversary of the introduction into the country of cotton spinning by power by Samuel Slater in the city of Pawtucket.

Edward Carroll, one of the Trinidad train robbers, who shot the Achison engineer and fireman July 30th, made a full confession on the witness stand at Pueblo, Col., Monday.

President Harrison has promised the Labor Committee that when Congress adjourned he would give consideration to the eight-hour law and would insist upon its strict enforcement in Government buildings.

White Caps in Calhoun county, Ala., organized to rid the county of immoral characters, attempted to take a woman to the woods to whip her. She broke away, and, while running, was shot. She was left where she fell and where she was found the next day.

Ex-Secretary Bayard denies that there is anything similar in the Barrundia case to that of Gomez, over whom there was some trouble during Cleveland's administration.

Colonel George R. Davis, Director General of the World's Fair, has purged himself of politics by resigning his position as member of the Republican National Committee.

William Bradley stated Monday in the Wheat Postoffice investigation of the House that he had been on the House pay-roll in March and April under different names. He did not work, but drew about \$160, all of which went to Wheat's son except \$15.

The Model Cow.

The characteristics of a good useful cow were thus particularly set forth by Secretary Batchelder, of Concord, N. H., in a recent address.

"She should have a fine, long head; be broad between the eyes, the eyes should be large and mild, the muzzle thin and wide, the ears thin and the inside covered with yellow skin; the fore-quarters light, the body wedge-shaped, increasing in size to the rear, the legs flat with fine bones, the thighs thin, the bones of the rump set widely apart, the back broad and straight, the ribs and barrel round and well sprung, the tail long and fine, the udder large and full, extending well behind, and the large milk-veins under the belly should be full and tortuous. A fine horn, a deep yellow and a general feminine elegance of form are also good indications. A well shaped escutcheon on the back of the thighs and under will do no harm, but experience proves that some very excellent cows lack this characteristic."

He further remarked, that 40 pounds of sausage with eight pounds of hay, or 20 pounds of dry barley or oat fodder, or hay, was about the requisite feed for a 1,000-pound cow, per day. An excellent ration for the production of milk in a 1,000-pound cow, would be four pounds of gluten or cottonseed meal, two pounds of corn meal and two pounds of wheat or rye bran.

A cow that gives less than 3,000 quarts of milk, or makes less than 250 pounds of butter in a year, is unprofitable, and yet the average production is far below this. At present prices it costs 20 cents a day to keep a cow in the stable, as cows are usually kept, so that the cow that gives seven quarts of milk a day, that is sold for three cents a quart, is of very little benefit to her owner. Experience proves that a cow will yield a greater income by dropping her calf between September and November, or in the Fall months, especially if she is turned out to grass in the Spring. The green feed stimulates the flow of milk, and prolongs the milking season. Calves, he said, could be grown on skimmed milk with a little bran or grain after they were two or three weeks old, but a dissector remarked that a fat-ridden animal betrayed its early feeding. A calf that is fat fed on warm new milk will have a rotundity of form that the other never possesses.

BIRCHELL FOUND GUILTY.

The End of the Famous Trial—The Evidence Circumstantial But Conclusive.

Birchell, the man who was accused of murdering Frederick C. Benwell in "Dead Man's Swamp," near Woodstock, Ont., on the afternoon of February 17th, and whose trial has created such a profound sensation in Canada, was on Monday convicted of murder in the first degree and sentenced to be hanged on November 14th. Birchell lured his victim from England to show him a mythic ranch which he claimed to own, and having enticed him into the swamp murdered him for the money upon his person. The evidence was circumstantial but was complete, Birchell, however, denies the commission of the crime.

An Englishman's View.

In a recent address before the Angus Agricultural Society of Scotland, Mr. Barclay, M. P., said:

Some years ago pleuro got a considerable hold in the United States of America, and, in consequence, the Government—very properly, he thought—took steps to have the importation of cattle from the United States prohibited for a time. The United States felt that that was a limit and embargo on their trade, and they also recognized the great risk to their own herds from the spread of the disease; and for the last two or three years the Government of that country, supported generally by the States' Governments, had been taking very active measures for the eradication of pleuro, and these measures had, he was glad to think, been nearly successful. A communication which he had had from the Minister of Agriculture for the United States, informed him that for several months there had been no case of pleuro in that country, and that for twelve months previously it had been limited to a very narrow section of the country. It was evident, however, that there were two classes of farmers who possessed separate interests in the matter. There were the breeders of cattle—those who owned the valuable and handsome animals that were seen in the showyard that day, and those who were naturally jealous of the importation of foreign cattle, in case it should introduce disease amongst their herds. That was a natural and very legitimate feeling, and one to which full effect ought to be given. On the other hand, the breeders of cattle—those who wanted to buy cheap stores—desired to have the widest market possible, and were anxious to have a chance to get cheap store cattle from the United States. On the other hand, the breeder was entitled to say, you are not to bring any diseased cattle into this country; and on the other, the feeder might say, I demand in this free trade country to have a free market from which to buy my store cattle. If for twelve months there was no pleuro in the United States, and if the inspectors who examined the fat cattle brought into this country from abroad found no trace of disease amongst them, he thought that the breeders ought to be satisfied that there was no practical risk under continued supervision and inspection from the importation of store cattle from the United States, and that the Minister of Agriculture might then, with justice to all classes of the community, permit the importation of such cattle from the States. There was just one point to which he would call the attention of those gentlemen who were very anxious for the importation of stores from the United States, and that was that if store cattle were imported free and without any risk or restriction, the same law must apply to fat cattle, so that they might then expect that fat cattle from the States would be shown at the different markets all over the country, and so possibly prove still more formidable competitors than they had been in the past.

The Southern Pacific and Its Employees. Chief Arthur, of the Brotherhood of Locomotive Engineers met the officials of the Southern Pacific Company in San Francisco, Tuesday, to settle the grievance of the engineers on the Atlantic system regarding promotion. It was decided to settle the matter by arbitration, and a committee will meet at Houston, Texas, during October.

Secretary Stoddard is busy closing up the unfinished business of last week's State Fair.

Chief Arthur, of the Brotherhood of Locomotive Engineers met the officials of the Southern Pacific Company in San Francisco, Tuesday, to settle the grievance of the engineers on the Atlantic system regarding promotion. It was decided to settle the matter by arbitration, and a committee will meet at Houston, Texas, during October.

A HORSE WHO CAN TALK.
Everybody has heard of a "horse laugh," but who has ever seen an equine gifted with the power of speech? Such an animal would be pronounced a miracle; but so would the telephone and the telephone a hundred years ago. Why, even very recently, a cure for consumption, which is universally acknowledged to be incurable, affecting the lungs, would have been looked upon as miraculous, but now people are beginning to realize that the disease is not incurable. Dr. Pierce's Golden Medical Discovery will cure it, if taken in time and given a fair trial. This world-renowned remedy will not make new lungs, but it will restore diseased ones to a healthy state when other means have failed. Thousands gratefully testify to this. It is the most potent tonic, or strength-giver, or restorative, or blood-cleanser and nutritive, or flesh-builder, known to medical science. For Weak Lungs, Spitting of Blood, Bronchitis, Asthma, Catarrh in the Head, and all Lunging Coughs, it is an unequalled remedy. In gerangements of the stomach, liver and bowels, or indigestion, or Dyspepsia, Biliousness, or "Liver Complaint," Chronic Diarrhea, and kindred ailments, it is a sovereign remedy.
"Golden Medical Discovery" is the only medicine of its class, sold by druggists, under a printed guarantee, from the manufacturer, that it will benefit or cure in every case of the disease for which it is recommended, or money paid for it will be promptly refunded.
Copyright, 1888, by WORLD'S DIS. MED. ASSN.

\$500 OFFERED
for the discovery of a cure for the disease of the eye known as Catarrh of the Eye, for an incurable case of Catarrh in the Head.

BREVITIES.

Bar silver 112 3/4.
The Carson races are now in full blast.
For window glass, all sizes, go to Lange & Schmitt.

The east-bound was 45 minutes late yesterday morning.

The weather is extra fine after the rain of Monday night.

There seems to be quite a demand for female help just at present.

Ritenburg & Dowe will close their photographic gallery on October 25th. See 50-cent column.

Miss Katherine D. Linn of Reno, has been employed to teach the school at Hamilton, White Pine county.

The Carson public schools have been dismissed for the week, so as to give all a chance to take in the fair.

P. T. Goodrich, of Battle Mountain, is in town on the lookout for land covered by the new irrigation surveys.

Not in the history of Ormsby county politics has there been so many candidates for county positions as this year.

The London police have received a letter from "Jack the Ripper" stating that he is about to kill another woman.

Go to Lange & Schmitt for heating stoves, cook stoves, ranges and house furnishing goods. Largest variety and best values.

Dr. Dawson has moved his office into the room adjoining Miss McKee, on Second street, three doors west of the JOURNAL office.

Mr. and Mrs. Wm. Green and Mr. and Mrs. Asher, of Susanville, came up from San Francisco yesterday morning on their way home.

The summits of the Sierras yesterday displayed a slight covering of snow which soon disappeared beneath the warm rays of the sun.

Uncle George Tuffy is reported to be getting along very flourishingly at Napa, California, and able to eat just as big a beef-steak as ever.

The Gazette yesterday entered upon its thirtieth volume and fifteenth year. It is a good paper and deserves the patronage which it receives.

The mail service between Ely and Cherry Creek has been made tri-weekly instead of semi-weekly. The change went into effect yesterday.

E. A. Puschel, a former Reno printer, is now manager of a first-class Democratic newspaper that has recently been started in Bakerfield, Kern county, Cal.

Hon. R. K. Colcord, Hon. John F. Egan, Hon. J. A. Stephens and Hon. John E. Jones will open the Republican campaign circuit by speech making at Hawthorne to-night.

Dr. C. J. Mallon, who has been practicing medicine in Reno for some time, departs this morning for St. Louis, Mo., where he goes for a four weeks' vacation on a visit to his old home.

Carson Appeal: Winnemucca claims the best band. Candidly speaking, Winnemucca has a splendid musical organization and as Bill Nye would say: "Its music is a sight better than it sounds."

The young men of the State are stepping to the front to receive recognition from both political parties, and more young men will be elected this year to office than ever before in the history of the State.

Carson Tribune: The time is approaching when the head of the family will put up the winter stovepipe, and the careful mother will send the children out of hearing in order that they may not be given a forceful lesson in profanity.

The Ely Postoffice is to be made a money order office. Postmaster Graham has received instructions from Washington to file his bond for the same. He has done so. This will be an additional accommodation for the people of Ely.

A Mrs. Adam Watcher, of Allentown, Pa., an invalid, has fasted one hundred and eighty-two days without a morsel to eat or a drop of water. Her sufferings are extreme. Dr. Selger, her attendant physician, is of the opinion that she may last another month.

In Wilkesbarre, Pa., Saturday, September 28th, Harry Molenbrock was to be tried for desertion of his wife. The lady in question did not appear, but the unusual fact was discovered that seven of her previous husbands, besides Molenbrock, were present to witness the trial. The case was dismissed without argument.

At the conventions of both political parties meet next week, the JOURNAL desires to call their attention to two of the most important offices in the county to be filled. It means those of County Commissioners. There is or should be no politics about this office, and good men should be elected. The county has been very fortunate during the past six years in having a good Board, and the JOURNAL hopes both parties will give the people good material to select from this time.

An Attempted Suicide.

A Poland by the name of Roman Gedessa attempted to commit suicide at the Ogden depot Saturday by cutting his own throat from ear to ear. The cause assigned for the act was that some one had telegraphed east that he had committed an unnatural crime. The doctor says the man was undoubtedly insane.

A private letter from R. H. Lindsay, written from Medford, Oregon, states that the party are all well and have been enjoying themselves hugely during the entire trip. At Ashland M. S. Lindsay and the other ladies of the party took the train for Portland. Mr. Lindsay writes that he is seeking a market for his horses and stage, which would seem to indicate that the continuance of the trip by wagon had been given up.

"Reno Day."

Secretary Stoddard yesterday interviewed a number of Reno business men, and it has been decided to name Friday, October 3d, as "Reno Day" for the Carson Fair. Tickets for that day for the round trip will be \$1.50. Let everybody turn out.

Discovery of a Dead Body.

The San Francisco Bulletin of Tuesday evening says the discovery of a man very much decomposed was found in the bay off Lombard-street wharf Tuesday afternoon and removed to the Morgue. In the deceased's pockets were found a pocket with the initials "T. O. B." and "T. C." on it, and a card of the Saratoga saloon at Virginia City, Nev., on it, one of the owners of which is T. C. O'Brien, who is supposed to be the dead man. He was of middle age and fairly well dressed.

On the Way.

A private letter from R. H. Lindsay, written from Medford, Oregon, states that the party are all well and have been enjoying themselves hugely during the entire trip. At Ashland M. S. Lindsay and the other ladies of the party took the train for Portland. Mr. Lindsay writes that he is seeking a market for his horses and stage, which would seem to indicate that the continuance of the trip by wagon had been given up.

"Reno Day."

Secretary Stoddard yesterday interviewed a number of Reno business men, and it has been decided to name Friday, October 3d, as "Reno Day" for the Carson Fair. Tickets for that day for the round trip will be \$1.50. Let everybody turn out.

An Attempted Suicide.

A Poland by the name of Roman Gedessa attempted to commit suicide at the Ogden depot Saturday by cutting his own throat from ear to ear. The cause assigned for the act was that some one had telegraphed east that he had committed an unnatural crime. The doctor says the man was undoubtedly insane.

A DISTRESSING ACCIDENT.

Frank Porter Run Over by the Cars—One Leg Completely Severed.

Yesterday afternoon occurred one of those distressing accidents of which the railroad has found so many victims. Frank Porter, yardmaster of the C. P. railroad at this place, and a young man well known and esteemed by all who know him, lies at his home on Virginia street with one leg completely severed and the other mangled. He was sitting on the brake of the last of two cars that were about to be coupled onto the main train which was backing down to meet them. He was talking with James Stanaway at the time and did not notice that the other train was about to couple with them. When the bump came he was thrown from his seat heavily to the track. In an instant the iron wheels had done their work and passed over the leg that had fallen across the rail. He caught instinctively at the brake-rod and held on until the train was stopped, being dragged in the meantime thirty feet. His other leg was badly bruised and is thought to be broken. Fortunately Dr. Thoma was standing near when the accident took place and rendered the unfortunate man every assistance in his power.

Frank Porter is a brother of A. O. Porter, of the Reno Gazette. He is a young man highly esteemed in Reno, and has a wife and one child, having been married but four years ago.

Doctors Thoma and Bergstein amputated the wounded member soon after the accident. The other limb was not seriously injured. At last reports the sufferer was getting along very well, and no dangerous termination was feared.

GONE TO CARSON.

Some Instructions in regard to the Capital Elephants—They May be Observed but Not Handled.

A. T. Rice, the ubiquitous milkman of Reno, went up to Carson yesterday morning to attend the races. He will undoubtedly create a sensation among the staid citizens of that peaceful burg. He has been carefully instructed, however, and full descriptions given him of the leading bunco men, including Sam Davis, whose private refrigerator he has been particularly warned to avoid. Democratic politicians were also to be given a wide berth as they have the reputation of enticing the unwary on the rocks of political destruction. As he has been well and carefully raised, and in boyhood frequently inclined horizontally over his fond parents' knee just as the twig was bent, it is to be hoped that he will be able to return in safety in spite of the wiles of the Carson elephant.

CHAUTAUQUA.

A Circle Organized—A Good Outline for Reading.

A Chautauqua literary and scientific circle was organized Tuesday night at the Methodist parsonage. A score or so of young people met and determined to undertake the readings for the year. To anyone who has a few moments leisure each day which he desires to devote to intellectual improvement, there can be no better form pursued than to do the Chautauqua readings, and the selections carefully made. Besides few people are qualified to make good choice as to the books they shall read. The books in the circle have been selected by the ablest scholars in the land, and can hardly be improved upon.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle.

Discovery of a Dead Body.

The San Francisco Bulletin of Tuesday evening says the discovery of a man very much decomposed was found in the bay off Lombard-street wharf Tuesday afternoon and removed to the Morgue. In the deceased's pockets were found a pocket with the initials "T. O. B." and "T. C." on it, and a card of the Saratoga saloon at Virginia City, Nev., on it, one of the owners of which is T. C. O'Brien, who is supposed to be the dead man. He was of middle age and fairly well dressed.

On the Way.

A private letter from R. H. Lindsay, written from Medford, Oregon, states that the party are all well and have been enjoying themselves hugely during the entire trip. At Ashland M. S. Lindsay and the other ladies of the party took the train for Portland. Mr. Lindsay writes that he is seeking a market for his horses and stage, which would seem to indicate that the continuance of the trip by wagon had been given up.

"Reno Day."

Secretary Stoddard yesterday interviewed a number of Reno business men, and it has been decided to name Friday, October 3d, as "Reno Day" for the Carson Fair. Tickets for that day for the round trip will be \$1.50. Let everybody turn out.

BUSINESS DISADVANTAGE.

The Remedy Lies in a Moral Boycott.

The merchants of Virginia City, who are men of experience and perfectly capable to conduct as large mercantile establishments as can be found away from tide water, says the Enterprise, are laboring under distressing disadvantages in Virginia City, owing to the decision of the United States Supreme Court to the effect that drummers cannot be taxed for the sale of their wares.

Representatives of Sacramento and San Francisco houses will come to Virginia, and in one day will take as many orders for goods as any of our merchants will fill in a month. They are put to no other expense than a hotel bill and half-fare over the railroad. They pay no tax for the support of State, county or municipal government. These foreign merchants and their property are protected by the taxes that are paid by the home merchant, who, in this manner, is burdened with the legitimate expenses of his opposition. The outside merchant employs no clerks and pays nothing for store or room rent. He simply pilfers his business in our community.

There is no remedy for this outrageous competition to which our merchants are subjected except a moral remedy, and this means lies in their own hands, if they will work together. They should band themselves together to buy no goods from any firm which sells in this town in opposition to them. By so doing outside merchants would be forced to open a place of business here, and subject their goods to that legitimate taxation to which they should be subjected, and both sides would then stand on an equal footing.

Attention, Members of Amity Lodge No. 8, K. of P.

Bro. J. T. Davis will arrive in Reno on Friday at 10.05 A. M., bringing the remains of his sister to be buried in the K. of P. cemetery. As many of you as can possibly do so are requested to be at the train to act as an escort from the train to the cemetery. C. A. Jones, C. C. S. J. HODGKINSON, K. of R. & S. Gazette copy.

Don't forget to register.

Be Sure

If you have made up your mind to buy Hood's Sarsaparilla do not be induced to take any other. Hood's Sarsaparilla is a peculiar medicine, possessing, by virtue of its peculiar combination, proportion, and preparation, curative power superior to any other article. A Boston lady who knew what she wanted, and whose example is worthy imitation, tells her experience below:

To Get

"In one store where I went to buy Hood's Sarsaparilla the clerk tried to induce me to buy their own instead of Hood's; he told me their's would last longer; that I might take it on ten days' trial; that if I did not like it I need not pay anything, etc. But he could not prevail on me to change. I told him I knew what Hood's Sarsaparilla was. I had taken it, was satisfied with it, and did not want any other."

Hood's

When I began taking Hood's Sarsaparilla I was feeling real miserable, suffering a great deal with dyspepsia, and so weak that at times I could hardly stand. I looked, and had for some time, like a person in consumption. Hood's Sarsaparilla did me so much good that I wonder at myself sometimes, and my friends frequently speak of it." Mrs. ELLA A. GOFF, 61 Terrace Street, Boston.

Assets, \$12,000,000.

The history of the past has proven beyond a
question that an endowment policy in a life insur-
ance company is a much

BETTER INVESTMENT

Than a savings bank; FIRST, because it is very
much safer — as the law of this State of New York
requires every life insurance company to keep a

Reserve in First-Class Securities

Equal to its liabilities, dollar for dollar; SECOND,
in case of death while making these small deposits,
the life insurance company will pay, just when
most needed by the family, the

Full Amount

Of the sum insured, amounting to 10, 20, or even
30 times as much as has been deposited; or on the

Return Premium

Plan of the MANHATTAN, they would do even more
than this, for they would at death pay the face of
the policy and in addition all the deposits (premi-
ums) paid, while the savings bank would only re-
turn the amounts actually deposited with interest.Who would not purchase a valuable piece of
property — a farm for example — worth \$10,000, if he
could have twenty years to pay for it, in small
sums of \$300 per annum with interest on deferred
payments and without any tax on it? The \$300 per
year being only 3 percent of the \$10,000 — a sum
not much greater than that paid annually for taxes
on property in hand, of the same cost, and espe-
cially if he could have the further conditions espe-
cially stated in the contract, 1st, that if he dies
while making these payments — even after one only
has been made —

No Further Payments Shall be Required

And the full title in fee simple to the entire farm
shall at once be given to his family; and 2d, that
if at any time after the three years during the
twenty years he shall be unable to continue the
payments and from sickness or any misfortune,
that then he could discontinue any further pay-
ments and have in fee simple such portions of the
farm as he has paid for; thus, if one-fourth of the
payments had been made, he would own one sep-
arate fourth of the farm, etc., and at the same time
the farm be entirely free from all claims of credi-
tors, under all circumstances, not even to be reached
by writ of execution or attachment issued by any
court, while if living to the end of the twenty years
and the annual payments have been made, the

Entire Property in Fee Simple

Is secured.
Now the MANHATTAN LIFE INSURANCE COMPANY
offers all this and more, for instead of offering
LAND on these terms, which is often taken up by
legal expenses and fees in case of the death of the
purchaser, or swallowed up by a mortgage
given to secure deferred payments, thus losing
the whole amount paid in and leaving the fam-
ily destitute, or dependent, it offers aSpecific Bond Secured by Millions
of First-Class Securities.Agreeing to pay MONEY on the same terms and
conditions as above — the cost per year varying at
different ages, but otherwise substantially the same
terms as above stated, while the sum to be paid at
the end of twenty years will be increased by divi-
dends and compounded interest for the full term,
thus making the investment a very PROFITABLE
and ADVANTAGEOUS one.Inquiries concerning the Bonds of this company
will receive prompt reply if addressed to

PLATFORM AND RESOLUTIONS

Adopted by the Republican State Convention held
at Virginia City, Nevada, September 4, 1890:The record of the Republican party is its best
platform.
No political party in human history has taken
such advanced positions for the quality of its
principles, its elevation of its standards, its up-
holding of the National credit, its efforts in behalf
of honest financial methods, its devotion to the
people and its devotion to the happiness of the
people.In all things it has been the direct opposite of
the Democratic party. Grand in its ambition and
impulses, firm and resolute in its consistency,
strong in its devotion to principle, it is now, as it
has been from birth, the representative of all that
is noble and best in the own country and hope
and promise of a better future for the human
race.
Its battles for human rights, its preservation of
the Union, its abolition of slavery, its protection
to labor, its elevation of manufactures, its up-
holding of the National credit, its efforts in behalf
of honest financial methods, its devotion to the
people and its devotion to the happiness of the
people.the tariff in a patriotic and business like way, such
as will protect the interests of labor and at the
same time encourage capital to enterprises that
will furnish it with employment at good wages.
New States which were denied rights before
have been admitted to the Union, and the grip of
Tammany Hall upon the Presidency broken.
Trusts that grew rank under Cleveland's Admini-
stration have been broken up and made to obey
the laws of honest commerce.
Efforts are being made to prevent or punish
frauds and attempt to reform in elections.
A navy has been provided for and suitable pen-
sions granted to prevent suffering among the sick
and wounded heroes of the war.
Provision is being made for the reclamation of
the arid regions, where the Republic policy of
free homes and free schools can be extended.
Unearned land grants are being restored to the
public main and the land thrown open to action,
and in all things the pledges of the National
platform are being amply redeemed.We endorse the Administration of President
Harrison and commend it to the active course as
striking in contrast with his predecessor in office.
During the former Administration silver and
wheat touched the lowest price ever known, and
farmers burned their crops for fuel. Trusts were
stimulated, finances disarranged, strikes prevailed,
the mail service was demoralized and business
found itself oppressed instead of being encour-
aged by the methods of the Government, whose
policy was to benefit the country.
Today silver, wheat and all the products of
labor are rapidly rising, and while the Democratic
policy may perhaps be a better basis, the policy
destroying our prosperity they are culpable for the
results of blunders as they would be for crimes.
Under Harrison, Chinese and contract labor are
kept out of the country, American laborers and
mechanics protected, agriculture is encouraged by
a department intelligently conducted for its bene-
fit, and the laws are enforced in a wise, firm and
patriotic manner, presenting its ticket to the
voters of Nevada, the Republican party pledges
its nominees to retrenchment wherever it is pos-
sible in county and State expenditures.
We endorse the measure introduced by Senator
Stewart proposing to cede the lands within our
limits to the State for the purpose of aiding to im-
prove our water storage and irrigating systems, and
we support Congress and the President to
grant this much needed aid.We endorse the course of our Senators and Repre-
sentatives in Congress, and commend their ef-
forts to establish a better basis, the use of
silver as money, and to bring out the uncompro-
mising demand for the free coinage of both gold and sil-
ver and their equal station in our National cur-
rency.We are in favor of the improvement of the
wages of American labor by restricting immigra-
tion from foreign countries, a thorough revision
of our naturalization and land laws, the estab-
lishment of naval and coast defenses, the fostering
of free schools and popular education, the enforce-
ment of a free tariff and a fair count, cherishing
the defenders of our country, the protection of
every citizen at home and abroad, the fostering of
a policy that will extend our commerce, the set-
tling of all foreign complications by arbitration,
and we support Congress and the President to
construct water reservoirs and a system of ir-
rigation.Resolved, That we are in favor of the Australian
system of ballot.Resolved, That as the coming election the ques-
tion as to whether or not a Constitutional Con-
vention will be held is to be submitted to the people,
and we earnestly invite the calm and thorough
discussion of the question during the campaign.Resolved, That it is the policy of the Repub-
lican party of Nevada to secure
all safe and useful advancements in
public affairs, and especially in dispensing with
unnecessary offices and useless deputies in adjust-
ing salaries upon a basis of services performed, de-
creasing the per diem and mileage of members
of the Legislature, in the reduction of taxation
and in consolidating county offices and diminish-
ing county expenses, and to this end we pledge the
nominees of the convention and earnestly ask that
the nominees of the several county conventions be
likewise eligible.Resolved, That as the coming election the ques-
tion as to whether or not a Constitutional Con-
vention will be held is to be submitted to the people,
and we earnestly invite the calm and thorough
discussion of the question during the campaign.Resolved, That it is the policy of the Repub-
lican party of Nevada to secure
all safe and useful advancements in
public affairs, and especially in dispensing with
unnecessary offices and useless deputies in adjust-
ing salaries upon a basis of services performed, de-
creasing the per diem and mileage of members
of the Legislature, in the reduction of taxation
and in consolidating county offices and diminish-
ing county expenses, and to this end we pledge the
nominees of the convention and earnestly ask that
the nominees of the several county conventions be
likewise eligible.

ing brothers cordially invited to attend.
FRANK BELL, M. W.
F. McRAE, Recorder.THE CALIFORNIA
POWDER WORKS,230 California Street,
SAN FRANCISCO,Manufacture and keep constantly on hand
SPORTING,MINING,
and BLASTING
POWDER,A superior quality, fresh from the mills. It is being
constantly received and transported into the
interior, is delivered to the consumer within a few
days of the time of its manufacture, and is in
every way

Superior to Any Other Powder

In the market. We have been awarded
successively

Three Gold Medals!

At the MECHANICS' INSTITUTE and the State
Agricultural Society for the superiority of our
products over all others. We call attention to our

Hercules Powder,

Which combines all the force of other strong
explosives now in use, and the lifting force of the
very

BEST BLASTING POWDER.

Thus making it vastly superior to any other com-
pound now in useCircular containing a full description of this
Powder can be obtained on application at the
offices of any of our agents.
